Certificate number 24926

Since 2001 A1 Microwave has brought high quality technically advanced microwave filtering products to the SATCOM market. Using sophisticated in-house design and simulation software, all new designs are "right first time" allowing the design to move from the computer to the machine shop without the need for prototyping. A1 Microwave's expertise is firmly rooted in the design and testing of microwave products and our founder has over 25 years experience in this area.

Ordering information :- Model number PB1010WL C-band Satcoms TX Harmonic Reject Filter

Passband	5.9 to 6.4 GHz
Passband insertion loss	0.1 dB typical
Rejection : 2nd and 4th harmonic	60 dB min
3rd harmonic	90 dB min
Overall length	152 mm nominal
Weight	585 g
