Since 2001 A1 Microwave has brought high quality technically advanced microwave filtering products to the SATCOM market. Using sophisticated in-house design and simulation software, all new designs are "right first time" allowing the design to move from the computer to the machine shop without the need for prototyping. A1 Microwave's expertise is firmly rooted in the design and testing of microwave products and our founder has over 25 years experience in this area.

Ordering information :- Model number **PB1058WT C-band Satcoms Waveguide transition**

Designed for use in C-band satcoms transmitters

Passband 5.6 to 6.7 GHz
 Passband return loss 25 dB typical

Overall length 40 mm nominal

Weight 330 g

Flange CPR 137 F (alternatives available)
