Email: enquiries@a1-jmd.co.uk

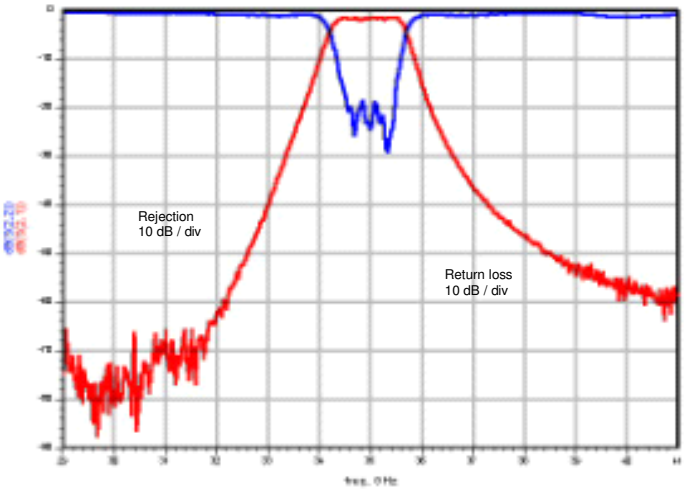
Certificate number 24926

Since 2001 A1 Microwave has brought high quality technically advanced microwave filtering products to the SATCOM market. Using sophisticated in-house design and simulation software, all new designs are "right first time" allowing the design to move from the computer to the machine shop without the need for prototyping.
A1 Microwave's expertise is firmly rooted in the design and testing of microwave products and our founder has over 25 years experience in this area.

Ordering information :- Model number **PB1060WB** 35 GHz Radar Filter

Designed for radar applications for suppression of local oscillator leakage from the mixer.

Passband		34.5 to 35.5 GHz
Rejection :	from DC to 29.5 GHz	60 dB min
	from 29.5 to 32.5 GHz	40 dB min
Weight		55 g
Connectors		K type compatible (alternatives available)



Issued :- 15 July 2009
