FORMAL OBJECTION

August 2003

Dear Sir,

Re: RED ROUTE A461/A491 PHASE 2 PILOT RED ROUTE

As an individual affected by the proposed red route, I wish to lodge my formal objection to these plans.

Residents and traders alike are of firm conviction that no benefit whatsoever will be gained from having this red route. On this premise. we wholeheartedly oppose the plans for this route

Traders which are essential to the local communities are at risk of closure under these plans. There are residents that depend on visitors to maintain good health and wellbeing, but visiting will be difficult if not impossible if these plans proceed.

Red Route will NOT solve problems it will create them. Dudley **Council** would be much better served if they focus their ‘problem solving’ on measures to slow speeding motorists and boy racers.

Yours faithfully
