

# ARION TECHNOLOGIES

The Better Choice for Audio/Video Distribution and Control Systems

## *VideoNet*™ Composite

### *Video and Audio Transport System*

For Virtually Any Structured Cable

*VideoNet*™ Composite brings simplicity to audio/video distribution.

*VideoNet*™ Composite is the perfect system for transporting multiple channels of video and audio over one Category wire. Designed for one-to-one or one-to-many applications.

The ideal solution for hundreds of applications:

Retail Stores  
Conference Facilities  
Malls  
Court Rooms  
Banks  
Theaters  
Sports Arenas  
Grocery Stores  
Airports  
Train Stations  
Training Centers  
Stock Exchanges  
Trading Floors

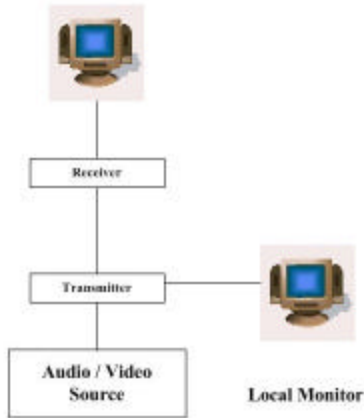

#### **Features and Benefits:**

- ❖ Ideal for transporting composite video and audio over virtually any structured cable - Category 5, 5e or 6.
- ❖ Can be powered at either end eliminating cumbersome electrical requirements at both ends.
- ❖ Has multiple channel configurations:  
One video and two audio,  
Two video and one audio or,  
Three audio.
- ❖ Receivers can be placed at distances up to 2000 feet from the transmitter.
- ❖ Distribution Hubs can be daisy chained for unlimited flexibility allowing up to 120 remote locations with the same video and audio signals

# VideoNet™ Composite
