

Mobile Phone Recycling Bin

When it comes to successful recycling, it is important to create a meaningful interface with the consumer. This product is all about presentation, communication & participation, the mobile phone bin does 'exactly what is says on the tin'.

The 'Mobile Phone Recycling Bin' allows phones and chargers to be dropped through the small security hole in the top. Once full, the contents can be secured by locking down the outer security lid. The high strength double walls have integral hand holes; this enables the fully loaded bin to be lifted ready for transit.

The fold down locking security lid also doubles up as a 'Header Display Card', this can be customised either by yourself (by using a label) or by having a customised overprint (minimum run 250 units)

Produced from 80% recycled & biodegradable board, this product comes flat pack for storage and transportation and is easy to assemble.

Height: 700mm - Width: 340mm - Depth 340mm - Header Card: 320mm wide x 280mm high

Capacity: 59 litres

Size: H 700mm x W 340mm x D340mm

Header Card: 320w x 280mm high

Material: Fluted Corrugated Board

Recycled Content: Up to 80%

Sustainable Source: Yes

Biodegradable: Yes

Manufactured in: UK

Manufacturing Miles: 99
