Chairman's statement

I report our results for the year ended 31 December 2010.

Revenue

The return on the revenue account before tax amounted to £2.1 million (2009: £1.6 million), an increase of 32 percent. Gross income amounted to £2.5 million (2009: £2.0 million), re-establishing the income levels achieved in the years prior to the global economic recession of 2008/9. £2.2 million of this amount (2009: £1.7 million) represented income from portfolio investments and £0.2 million (2009: £0.3 million) film, property and other income. The increase in portfolio income arose from a growth in dividends paid by core investee companies and a deliberate targeting of investment in higher and special dividend paying companies.

The return before tax, which includes realised and unrealised capital appreciation, amounted to a gain of £3.2 million (2009: £4.9 million gain) reflecting the recovery in investment valuations over the year and marking a second year of positive return after the previous two years of substantial capital losses.

The revenue return per ordinary share was 7.1p (2009: 5.1p) on an undiluted basis and 6.1p (2009: 4.6p) on a diluted basis.

Net Assets

Group net assets at the year end were £32.2 million (2009: £31.0 million), an increase of 3.7 percent. This compares to increases in the FTSE 100 and All Share indices of 9.0 percent and 10.9 percent, respectively, over the period. Although the year end result shows an increase in net assets compared to the decline in net assets reported at the interim stage, our portfolio nevertheless underperformed the benchmarks over the year as a whole, having outperformed at the half year point. This relative reversal was due to the combination of a very strong uplift in markets in the second half (by approximately 20 percent) and a decline in the value of our largest investment, Geron Corporation, in the last month of the year following the announcement of a large equity fundraising at the beginning of December, as explained in more detail below.

As reported at the interim stage, equity and most other financial markets had shown extreme volatility in the first half, with markets in the UK and US moving by a combined (peak to trough) of approximately 15 percent and registering declines of almost 10 percent at mid-year. This volatility was primarily caused by concerns about prospects for sustained growth in the USA and globally. The second half, however, was characterised by an unusually strong and sustained period of growth, with UK equities increasing by 20 percent and establishing 3-year highs. This strength resulted from the decision by the US Federal Reserve to initiate a second round of monetary quantitative easing in the US (QE2) to combat the signs of faltering return to growth seen in the first half of 2010.

The share price of our largest US investment, Geron Corporation, fluctuated considerably over the year in response to the announcements of various significant events. Geron's announcement in December of a large equity fundraising at a significant discount to finance an acquisition and provide working capital resulted in a decline in the share price of over 20 percent; this contributed largely to the underperformance of the portfolio as a whole at year end. More details are given in the Managing Director's report which follows.

The net asset value per ordinary share increased to 92p (2009: 89p) on a diluted basis. Deducting prior charges at par, the net asset value per ordinary share increased to 89p (2009: 84p).

Chairman's statement (continued)

Dividend

We are pleased to recommend an increased final dividend of 4.5p per ordinary share, which together with the interim dividend makes a total payment for the year of 7.2p (2009: 6.9p) per ordinary share. This represents an increase of 4.3 percent over the previous year's total dividend and a yield of 9.9 percent based on the share price of 73p at the end of the year. The final dividend will be payable on 23 June 2011 to shareholders on the register at 27 May 2011. A dividend of 1.75p will be paid to preference shareholders resulting in a total payment for the year of 3.5p per share.

Investment Trust regulation

HM Treasury's review of the tax and company law rules affecting investment trusts set out in its consultation document in July 2010 has, thanks very largely to painstaking work by our trade association, the Association of Investment Companies (AIC), resulted in sensible and beneficial amendments which will be advantageous to the whole industry. The proposed revisions that appeared particularly to discriminate against smaller trusts such as ourselves have been dropped.

The AIC has also done important work on the Alternative Investment Fund Managers Directive passed into law by the European Parliament last summer. Although there is much detail still to emerge before this Directive takes effect in 2013, it is clear that much of the over-bureaucratic regulation first proposed has been abandoned in favour of more pragmatic measures.

Outlook

While the high levels of growth in financial markets seen in the second half of 2010 abated in the first quarter of 2011, equity markets nevertheless remained firm at these higher levels. Towards the end of the quarter, however, sentiment began to change as concerns about levels of inflation in developed economies, the high cost of commodities and over-heating in developing countries took hold, resulting in expectations that the end of monetary easing and historically low interest rates would be hastened. This combined with the devastating effects of the Japanese earthquake and tsunami in March resulted in a sharp sell-off of equities and higher risk assets during the month and short-term turbulence in currency markets. These events and changes in sentiment have now set the scene for markets to consider the inevitable return over time to more conventional levels of official liquidity, interest rates and corporate growth prospects over the medium term. As a result, and barring any further unforeseen events or natural disasters, we would expect markets to display a less volatile and more subdued level of activity over the coming period.

Against this background, we maintain our long-term and income generating strategies that are primarily based on equity investment in the UK and USA.

As at 18 April 2011, group net assets had increased to £32.4 million, an increase of 0.6 percent since the beginning of the calendar year. This is equivalent to 90 pence per share (prior charges deducted at par) and 93 pence per share on a diluted basis. Over the same period the FTSE 100 decreased 0.5 percent and the All Share Index decreased 0.5 percent.

Managing Director's Report

Performance

The anticipated re-appraisal of growth prospects for economies and markets after a period of dramatic recovery in 2009 duly arrived in the first quarter of 2010 and a period of high volatility and uncertainty in financial markets ensued for the rest of the first half. Weak corporate growth, employment, housing and commodities indicators combined with disruption in the currency markets caused by difficulties in the Euro zone all served to destabilise the equity markets with risk appetite waxing and waning with the publication of each economic indicator. As a result, equities markets in the UK and US closed substantially down at the half year by 9 and 6 percent respectively, despite the generally favourable environment for equity investment in terms of interest rates, yields and earnings ratios.

Against this background, fears grew particularly in the USA that the recovery from one of the largest global recessions in 60 years would not run its course, particularly given the still unmet need in developed economies to reduce budget deficits and deleverage the financial and household sectors through spending reductions and higher taxes. As a result, the US Federal Reserve began to make it plain that the then current high levels of monetary easing would not be reduced as expected and that on the contrary a second round of easing was contemplated. This duly occurred formally in November, but its anticipation was sufficient to boost markets significantly and re-establish risk appetite throughout the second half of 2010. As noted above, UK and US equity markets grew by 20 and 18 percent in the second half of 2010, giving rise to full year increases of 10 and 11 percent, respectively.

As noted above, our portfolio outperformed the benchmarks at the half year both in asset value and total return but underperformed at the year end. This was principally due to a large 20 percent fall in the share price of our largest investment Geron Corporation in the final month of the year. This fall followed the announcement and completion of a large and generally unexpected equity fundraising at a 20 percent discount to market price to finance an acquisition and provide working capital. During the year, Geron was able to update the market on two positive developments, namely the lifting of a temporary halt by the Federal Drug Agency in July 2010 on its ground-breaking Phase 1 trial of embryonic stem cell therapy for spinal cord injury and in October the announcement of the first patient being treated, a world first. As a result, Geron's share price had strengthened steadily in the second half of 2010, until the announcement of the fund raising. However, the further announcement in early 2011 of a major change in senior management, including the departure of the long serving Chief Executive was also unexpected and resulted in further weakening of the share price to levels below that of the fund raising in December. Since then, however, the price has recovered somewhat but remains well below pre-fund raising levels. Nevertheless, the modest recovery has allowed our portfolio to outperform slightly in the first quarter of 2011, as noted above, and we remain firmly committed to our large investment in Geron for its significant growth potential in the medium term as it brings to fruition the development of its revolutionary oncology and embryonic stem cell technologies.

Managing Director's Report (continued)

Outlook

When last reporting in August 2010, it was noted that the outlook was very uncertain, poised between continuing recovery or return to recession, depending on governments' policy and monetary response to weakening indicators. In the event, the global stimulus was continued and even increased which had the effect of perpetuating the recovery. As already noted, however, this has led to concerns about growing inflationary pressures in many of the developed economies and price bubbles in commodities and large developing economies such as China. While downside economic risks still exist such as the large structural imbalances in government finances and bank balance sheets, the continuing reluctance of banks to lend, high oil prices and external shocks such as the recent natural disaster in Japan, the expectation now is that monetary and/or fiscal tightening will now proceed this year in most of the developed economies, bringing forward a period of lower growth expectation, increasing interest rates, lower corporate profitability and dull financial market performance. The beginnings of this trend have already been seen in the first increase in interest rates by the European Central Bank since the recession and signs in the UK that consumers have already started to limit significantly their retail consumption in non-essential areas.

We therefore anticipate a period of lower growth in major economies and financial markets. We will continue to invest for the long term alongside our core investments in UK investment trusts, seeking to identify situations giving higher levels of capital return and income.

Holdings in other investment companies

It is the company's stated policy to have an unlimited percentage of its gross assets in other listed investment companies. In accordance with the Listing Rules, the company will restrict any future investments in listed investment companies, which themselves do not have a policy of restricting their investments in other listed investment companies to 15% (or less) of their gross assets, to 10% of its gross assets at the time of the investment. As at 31 December 2010, 19.4% of the company's total assets were invested in the securities of other UK listed investment companies which themselves do not have a policy of restricting their investments to the 15% mentioned above. Of the twenty largest investments shown above, Alliance Trust and RIT Capital Partners fall into this category of investments as they have not specifically announced a policy to restrict their own investments in listed investment companies to no more than 15% of gross assets.

The financial statements will be presented for approval at the sixty third Annual General Meeting of the company to be held on Thursday 16 June 2011.

Business review

Business and status

The activities of the company and its subsidiary undertakings during the accounting year were as follows:

Company	Activities
British & American Investment Trust PLC (the 'company')	Investment trust
BritAm Investments Limited	Investment holding
Second BritAm Investments Limited	Investment holding
British & American Films Limited	Film investment company

The company is an investment company under section 833 of the Companies Act 2006.

The directors consider that the company has, and continues to, conduct its affairs in a manner to enable it to continue to comply with sections 1158 and 1159 of the Corporation Tax Act 2010. It is approved by HM Revenue & Customs as such, which enables it to realise its investments free from taxation on capital gains. Approval is retrospective and provisional and has been received in respect of the financial year to 31 December 2009, subject to any subsequent enquiry by HM Revenue & Customs into the company's tax return. The company has since directed its affairs to enable it to continue to seek approval.

Management and staff are conversant with the requirements of sections 1158 and 1159 of the Corporation Tax Act 2010. The board receives regular reports to monitor the company's compliance with the requirements of the Act. At the year end the company's tax advisers review the section 1158 calculation to be submitted to HMRC.

Future prospects

The future prospects of the company are explained in the Chairman's Statement on pages 3 and 4 and in the Managing Director's Report on pages 5 and 6.

Investment policy and objective

The company's stated investment policy is to invest 'predominantly in investment trusts and other leading UK quoted companies to achieve a balance of income and growth'.

In fulfilling this policy, the company acts as a long-only investment vehicle and in recognition of its status as an authorised investment trust and parent of a group of companies comprising two other investment companies and a film investment company. The company does not utilise gearing in its portfolio but does on occasion make use of derivative instruments to hedge exposures to particular investments or markets.

The company's objective is to achieve a balance to investors of growth in income and capital in order to sustain a progressive dividend policy. The policy of the investment portfolio is predominantly quoted UK investment trusts and other leading companies; other investments include overseas equities, bonds, indirect holdings in UK commercial property and the rights to receive royalties from certain longstanding commercial films.

Directors' report (continued)

Investment strategy and implementation

Investments are self-managed. The portfolio currently consists of a diversified list of around 46 UK quoted companies, 3 UK unquoted holdings and 3 overseas quoted companies.

Historically, investments in other investment trusts have accounted for approximately 50 percent of the total portfolio with the balance being invested in a selection of leading quoted companies to provide opportunities for capital growth and income generation. These other investments have often been concentrated in a small number of companies, typically in the finance, property, insurance and leisure sectors and have individually represented as much as 10 to 15 percent of the portfolio. Currently, these individual exposures are in the US biomedical (23.7%), UK property (0.26%) and UK insurance (11.82%) sectors. Smaller size investments are made in other UK listed companies (currently 20, accounting for 3.27% of the portfolio) and further risk diversification is achieved by investment in fixed income securities (currently 3.66%) and property investments (currently 1.03%).

The implementation of portfolio strategy includes some purchases of investee stocks after the announcement of a dividend and, consequently, some of the revenue income may have a corresponding capital loss, on the subsequent disposal of these investments.

The property portfolio currently consists of an indirect partial interest in 2 commercial properties, situated outside London, through Enterprise Zone Trusts.

The investments in investment trusts are spread over a wide number and variety of trusts including UK, generalist, specialist, income, overseas and split capital trusts in order to respond to the objectives of the stated investment policy. Generally, for the larger of such investments, trusts offering exposure to both the UK and US markets, a discount greater than 5 percent and a yield in excess of the benchmark yield is sought.

Whenever total investment in UK listed investment companies, which have not declared an investment policy to invest less than 15% of their gross assets in other UK listed investment companies, exceeds 10% of gross assets, no further investments in such companies are made until the total investments in such companies returns below 10% of gross assets. Currently these investments amount to 19.9% of group gross assets.

Portfolio performance in capital and income is measured and reported against the FTSE 100 and the benchmark FTSE All Share Indices and relative performance against AIC peer group members is monitored. There is a recognition that at times, particularly when foreign or foreign currency denominated investments form a significant element of the portfolio, a certain degree of performance mismatch to the benchmarks is likely to occur.

Directors' report (continued)

Performance

The directors consider a number of performance measures to assess the company's success in achieving its objectives.

The key performance indicators (KPIs) used to measure the performance of the company over time are the following established industry measures:

- the movement in net asset value per ordinary share (after deducting preference shares at par) compared to the benchmark FTSE All Share Index;
- share price total return;
- the discount (after deducting preference shares at par);
- the total expense ratio;
- earnings per share;
- dividend per share.

A historical record of these measures is shown on pages 7, 8 and 11.

The board also considers peer group comparative performance.

The review of the business is included in the Chairman's Statement on pages 3 and 4 and Managing Director's Report on pages 5 and 6. Information on movements in the NAV and on investments since the year end is included on pages 7 and 9 respectively.

Discount

The discount, in absolute terms and relative to other similar investment trust companies, and the composition of the share register is monitored by the board. While there is no discount target or management policy the board is aware that discount volatility is unwelcome to many shareholders and that share price performance is the measure used by most investors. The board seeks to provide effective communication to existing and potential shareholders and maintain the profile of the company.

Principal risks and uncertainties

The principal risks facing the company relate to its investment activities and include market risk (other price risk, interest rate risk and currency risk), liquidity risk and credit risk. An explanation of these risks and how they are managed is contained in note 19 to the accounts on pages 40 to 44. The other principal risks to the company are loss of investment trust status, which is explained on page 12 and operational risk. Operational risk is the risk of inadequate or failed processes or systems. The main potential risk relates to systems for holding and administering investments. There is a framework in place to manage this risk which is monitored and reviewed by the board.

Financials

The financial highlights for the year under review are as follows: the net asset value per share increased by 3.7% during the year, compared to a increase in the benchmark of 10.9%, ordinary share dividends increased by 4.3% to 7.2p per share and the premium moved from 1.5% to a discount of 20.6% at the year end.

ISAs

The company has conducted its investment policy so as to remain a qualifying investment under the ISA regulations. It is the intention of the directors to continue to satisfy these regulations.

Directors' report (continued)

The dividends proposed above will be paid on 23 June 2011 to ordinary shareholders on the register at 27 May 2011 and to 3.5% preference shareholders on the register at 31 December 2010.

Directors and their interests

The present directors of the company are as set out on page 1. Having served as a director since 1996, 1999 and 2001 Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson respectively and, being eligible, retire and offer themselves for re-election. The Board recommends their re-election. At the time of the Annual General Meeting Mr DG Dreyfus will have completed more than 15 years service, Mr JAV Townsend 11 years service and Mr RG Paterson 10 years service as a non-executive director. In making the recommendation, the Board has carefully reviewed the composition of the Board as a whole and borne in mind the need for a proper balance of skills and experience. The Board does not believe that length of service detracts from the independence of a director, particularly in relation to an investment trust, and on that basis considers that Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson remain independent. It is confirmed that, following formal evaluation, the performance of each director continues to be effective and each continues to demonstrate commitment to the role.

Directors' report (continued)

The directors during the year ended 31 December 2010 had interests in the shares of the company as follows:

	2010		2009	
	Beneficial	Non-beneficial	Beneficial	Non-beneficial
Ordinary shares of £1				
JC Woolf	460,812	15,771,562	460,812	15,771,562
DG Dreyfus	5,000	–	5,000	–
JAV Townsend	7,500	–	7,500	–
RG Paterson	1,000	–	1,000	–
Non voting convertible preference shares of £1 each				
JC Woolf	–	10,000,000	–	10,000,000

Included in the non-beneficial interest in the ordinary shares of £1 each referred to above, are 6,902,812 (27.6%) (2009 – 6,902,812 (27.6%)) ordinary shares held by Romulus Films Ltd, 7,868,750 (31.5%) (2009 – 7,868,750 (31.5%)) ordinary shares held by Remus Films Ltd and 1,000,000 (4.0%) (2009 – 1,000,000 (4.0%)) ordinary shares held by PKL Pictures Limited. Romulus Films Ltd also holds 10,000,000 cumulative convertible preference shares (2009 – 10,000,000). Mediterranean Holdings Ltd has also notified an interest in all the holdings of Romulus Films Ltd and Remus Films Ltd.

Except in the ordinary course of business no director had an interest in any contract in relation to the company's business at any time during the year.

Other information

In addition to the directors' interests in shares detailed above, at 26 April 2011 the directors had been notified of the following interests of 3% or more of either class:

	Number of shares held	%
Jupiter Monthly Income Fund Unit Trust	1,835,000	7.3
Lady Lever of Manchester	1,186,562	4.7

These interests relate to the ordinary shares of the company.

Share Capital

Capital Structure

The company's capital comprises £35,000,000 (2009 – £35,000,000) being 25,000,000 ordinary shares of £1 (2009 – 25,000,000) and 10,000,000 non-voting convertible preference shares of £1 each (2009 – 10,000,000).

Dividends

The ordinary shares carry a right to receive dividends. Interim dividends are approved by the directors and the proposed final dividend is subject to shareholder approval.

The preference shares have a 3.5% fixed cumulative preferential dividend payable half yearly in equal amounts.

The company's Articles of Association specifies the preference rate of dividend and provides that, if at any dividend date the profits available for distribution are insufficient to pay the ordinary and preference shareholders at the 3.5% rate then the dividend will be paid to all shareholders *pari passu*.

Directors' report (continued)

Further, any arrears of preference dividend cannot be paid in any year unless the ordinary shares have received a 3.5% dividend, on par.

Finally, no dividends on ordinary shares may be paid if there are unpaid arrears of the preference shares dividend.

Capital entitlement

On a winding up, after meeting the liabilities of the company the surplus assets will be distributed as follows:

- (i) firstly, any arrears of preference shares fixed rate dividend
- (ii) secondly, an amount equal to the nominal value of the ordinary and preference shares to be paid *pari passu*
- (iii) lastly, the balance of surplus assets to be paid rateably to the ordinary shares.

Voting

The preference shares shall not have any right to vote unless the business of the meeting includes consideration of any resolution for the winding up of the company, purchase by the company of any of its own shares, or a reduction of the capital, or a varying of the rights of the preference shares.

On a show of hands, every ordinary shareholder (or preference shareholder in the situations described in the above paragraph) present in person (or, being a corporation, by a representative) has one vote and upon a poll every shareholder present has one vote for every share, and a proxy has one vote for every share. Information on the deadlines for proxy appointment is shown on page 51.

Conversion

At any time, during the period from 1 January 2006 to 31 December 2025 (both dates inclusive), and, if published audited annual accounts showing Group shareholders' funds are £50 million or more, preference shareholders have the right to convert all or any of their shares on a one for one basis to new ordinary shares.

Purchase of shares

The company does not have a buy-back authority and no present intention to seek shareholders' approval for one.

Creditor Payment Policy

The company's payment policy is to agree terms of payment before business is transacted, to ensure suppliers are aware of their terms and to settle invoices in accordance with them. There were no trade creditors outstanding at the year end (2009 – £nil).

Directors' & officers' liability insurance cover

Directors' & officers' liability insurance cover was maintained by the board during the year ended 31 December 2010. It is intended that this policy will continue for the year ended 31 December 2011 and subsequent years.

Directors' report (continued)

Directors' indemnities

As at the date of this report, indemnities are in force between the company and each of its directors under which the company has agreed to indemnify each director, to the extent permitted by law, in respect of certain liabilities incurred as a result of carrying out his role as a director of the company. The directors are also indemnified against the costs of defending any criminal or civil proceedings or any claim by the company or a regulator as they are incurred provided that where the defence is unsuccessful the director must repay those defence costs to the company. The indemnities are qualifying third party indemnity provisions for the purposes of the Companies Act 2006. A copy of each deed of indemnity is available for inspection at the company's registered office during normal business hours and will be available for inspection at the Annual General Meeting.

Corporate Governance

The Corporate Governance Statement on pages 45 to 48 (which forms part of this directors' report) and the contents of the directors' report constitutes the statement on the application by the company of the principles of the Combined Code on Corporate Governance, as required by the UK Listing Authority.

Statement of disclosure of information to auditors

So far as the directors are aware, there is no relevant audit information (as defined by section 418(2) of the Companies Act 2006) of which the company's auditors are unaware, and each member has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Directors' responsibility statement

The directors are responsible for preparing the financial statements in accordance with applicable law and regulations. The directors confirm that to the best of their knowledge the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit of the company and the undertakings included in the consolidation taken as a whole and that the Chairman's Statement, Managing Director's Report and the Directors' report include a fair review of the information required by rules 4.1.8R to 4.2.11R of the FSA's Disclosure and Transparency Rules.

Auditors

A resolution to reappoint Grant Thornton UK LLP as auditors of the group will be proposed at the forthcoming Annual General Meeting.

Statement of Directors' responsibilities in respect of the Annual Report and Financial Statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare group and parent financial statements for each financial year. Under that law the directors have to prepare the group financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs).

Under section 393 of the Companies Act 2006, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the company and group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- for the group financial statements, state whether applicable IFRSs have been followed, subject to any material departures disclosed and explained in these financial statements;
- for the parent company financial statements, state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in these financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and the parent company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006 and Article 4 of the IAS Regulation.

They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The maintenance and integrity of the British & American Investment Trust PLC website is the responsibility of British & American Investment Trust PLC; the work carried out by the auditors does not involve consideration of these matters and accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Independent auditor's report

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BRITISH & AMERICAN INVESTMENT TRUST PLC

We have audited the financial statements of British & American Investment Trust PLC for the year ended 31 December 2010 which comprise the group income statement, the group statement of changes in equity, the company reconciliation of movements in shareholders' funds, the group and company balance sheet, the group cash flow statement and the related notes. The financial reporting framework that has been applied in the preparation of the group financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors' Responsibilities set out on page 19, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the APB's website at www.frc.org.uk/apb/scope/private.cfm.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2010 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the group financial statements, Article 4 of the IAS Regulation.

Independent auditor's report (continued)

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006; and
- the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules, we are required to review:

- the directors' statement, set out on page 48, in relation to going concern;
- the part of the Corporate Governance Statement relating to the company's compliance with the nine provisions of the June 2008 Combined Code specified for our review; and
- certain elements of the report to the shareholders by the Board on directors' remuneration.

Notes to the financial statements

31 December 2010

1 Accounting policies

A summary of the principal accounting policies is set out below.

a) Basis of preparation and statement of compliance

The group financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), which comprise standards and interpretations approved by the IASB and International Accounting Standards and Standing Interpretations Committee interpretations approved by the IASC that remain in effect, and to the extent they have been adopted by the European Union at 31 December 2010. The company has elected to prepare its parent company accounts under UK Generally Accepted Accounting Practice (GAAP).

The financial statements have been prepared on the historical cost basis except for the measurement at fair value of investments, derivative financial instruments, and subsidiaries. The same accounting policies as those published in the statutory accounts for 31 December 2009 have been applied.

Where presentational guidance set out in the Statement of Recommended Practice (SORP) for investment trusts revised by the Association of Investment Companies (AIC) in January 2009 is consistent with the requirements of IFRS, the directors have sought to prepare the financial statements on a basis compliant with the recommendations of the SORP.

The group's significant accounting policies are set out below, together with the judgements made by management in applying these policies, which have the most significant effect on the amounts recognised in the financial statements, apart from those involving estimations, which are dealt with separately below. These accounting policies have been applied consistently to all periods presented in these consolidated and parent company financial statements.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment within which the group operates. There are no foreign operations.

These accounting policies are consistently applied across the group entities.

Future standards in place but not yet effective.

New and updated IFRS's have been reviewed for their impact on the group and no material impact is expected on the financial statements from new and updated IFRS's.

b) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company and its subsidiary undertakings made up to 31 December each year. Control is achieved where the company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

No income statement is published for British & American Investment Trust PLC as permitted by section 408 of the Companies Act 2006. The company's profit on ordinary activities after taxation for the year was £3,231,802 (2009 – £4,839,333 profit).

In the company's financial statements, investments in subsidiary undertakings are stated in accordance with the policies outlined under (d) below.

Losses on disposal of investments in the group financial statements are based on historical cost to the group.

c) Presentation of income statement

In order better to reflect the activities of an investment trust company and in accordance with guidance issued by the AIC,

Notes to the financial statements (continued)

1 Accounting policies (continued)

supplementary information which analyses the income statement between items of a revenue and capital nature has been presented alongside the income statement. In accordance with the company's status as a UK investment company under section 833 of the Companies Act 2006, net capital returns may not be distributed by way of dividend.

d) Valuation of investments

As the group's business is investing in financial assets with a view to profiting from their total return in the form of interest, dividends or increases in fair value, non-current investments are designated as fair value through profit or loss on initial recognition. The group manages and evaluates the performance of these investments on a fair value basis in accordance with its investment strategy, and information about the investments is provided internally on this basis to the group's directors.

Investments held at fair value through profit or loss, including derivatives held for trading, are initially recognised at fair value.

All purchases and sales of investments are recognised on the trade date.

After initial recognition, investments, which are designated at fair value through profit or loss, are measured at fair value. Gains or losses on investments designated at fair value through profit or loss are included in profit or loss as a capital item, and material transaction costs on acquisition or disposal of investments are expensed and included in the capital column of the income statement. For investments that are actively traded in organised financial markets, fair value is determined by reference to quoted market bid prices or last traded prices, depending upon the convention of the exchange on which the investment is quoted. Investments in units of unit trusts or shares in OEICs are valued at the closing price released by the relevant investment manager.

Traded stock options are, until disposal, included under current assets or current liabilities, and valued in accordance with the above policy.

In respect of unquoted instruments, or where the market for a financial instrument is not active, fair value is established by using an appropriate valuation technique.

Investments in subsidiary companies are held at the fair value of their underlying assets and liabilities. Where a subsidiary has negative net assets it is included in investments at nil value and a provision made for it on the balance sheet.

e) Income

Dividend income from investments is recognised as revenue when the shareholders' rights to receive payment has been established, normally the ex-dividend date.

Interest income on fixed interest securities is recognised on a time apportionment basis so as to reflect the effective interest rate of the security.

Property EZT income is recognised on the date the distribution is receivable. Film royalty income is recognised on receipt of royalty statements covering periods ending in the financial year.

When special dividends are received, the underlying circumstances are reviewed on a case by case basis in determining whether the amount is capital or revenue in nature. Amounts recognised as revenue will form part of the company's distribution. Any tax thereon will follow the accounting treatment of the principal amount.

1 Accounting policies (continued)

f) Pension costs

Employer contributions to a defined contribution pension scheme (sponsored by a related party undertaking - see note 17) for staff are charged against revenue, on an accruals basis.

g) Expenses

- transaction costs which are incurred on the purchase or sale of an investment designated as fair value through profit or loss are included in the capital column of the income statement and disclosed in note 9;
- expenses are split and presented partly as capital items where a connection with the maintenance or enhancement of the value of the investments held can be demonstrated, and accordingly investment management and related costs have been allocated 50% (2009 - 50%) to revenue and 50% (2009 - 50%) to capital, in order to reflect the directors' long-term view of the nature of the expected investment returns of the company.

h) Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The group's and company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

In line with the recommendations of the SORP, the allocation method used to calculate tax relief on expenses presented against capital returns in the supplementary information in the income statement is the 'marginal basis'. Under this basis, if taxable income is capable of being offset entirely by expenses presented in the revenue column of the income statement, then no tax relief is transferred to the capital column.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Investment trusts which have approval under sections 1158 and 1159 of the Corporation Tax Act 2010 are not liable for taxation on capital gains.

i) Foreign currency

Transactions in currencies other than sterling are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items and non-monetary assets and liabilities that are fair valued and are denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Gains and losses arising on retranslation are included in net profit or loss for the period where investments are classified as fair value through profit or loss and presented as revenue or capital as appropriate.

j) Distributable reserves

Subject to the parent company's status as a UK investment company under section 833 of the Companies Act 2006, which does not permit net capital returns being distributed by way of dividend, unrealised gains and losses on quoted investments are included in the calculation of reserves available for distribution by way of dividend. However, in the interests of prudence the directors do not consider these unrealised gains to be distributable.

Notes to the financial statements (continued)

k) 3.5% cumulative convertible non-redeemable preference shares

The 3.5% cumulative convertible non-redeemable preference shares issued by the company are classified as equity instruments in accordance with IAS 32 'Financial Instruments - Presentation' and FRS 25 as the company has no contractual obligation to redeem the preference shares for cash or pay preference dividends unless similar dividends are declared to ordinary shareholders.

7 Earnings per ordinary share

The calculation of the basic and diluted earnings per share is based on the following data:

	2010			2009		
	Revenue return £000	Capital return £000	Total £000	Revenue return £000	Capital return £000	Total £000
Earnings:

Preference dividend	350	–	350	350	–	350
Diluted	2,139	1,097	3,236	1,619	3,228	4,847

Basic revenue, capital and total return per ordinary share is based on the net revenue, capital and total return for the period and after deduction of dividends in respect of preference shares and on 25 million (2009 – 25 million) ordinary shares in issue.

Notes to the financial statements (continued)

The diluted revenue, capital and total return is based on the net revenue, capital and total return for the period and on 35 million (2009 – 35 million) ordinary and preference shares in issue.

	<u>35,000</u>	<u>35,000</u>

The 3.5% cumulative convertible non-redeemable preference shares issued by the company have been classified as equity instruments in accordance with IAS 32 and FRS 25 - 'Financial Instruments - Presentation'. The directors are of the opinion that due to the fact the company has no contractual obligation to redeem the preference shares for cash or pay preference dividends unless also declaring a dividend to ordinary shareholders, they are correctly classified as equity and do not represent a financial liability.

Details of the rights attached to the preference shares are included in the 'Share Capital' section of the Directors' report on pages 16 and 17.

17 Related party transactions

The company rents its offices from Romulus Films Limited, and is also charged for its office overheads. During the year the company paid £11,030 (2009 – £11,156) in respect of those services.

The salaries and pensions of the company's employees, except for the three non-executive directors, are paid by Remus Films Limited and Romulus Films Limited and are recharged to the company. Amounts charged by these companies in the year to 31 December 2010 were £327,414 (2009 – £321,465) in respect of salary costs and £32,165 (2009 – £30,220) in respect of pensions.

At the year end an amount of £15,391 (2009 – £7,459) was due to both Romulus Films Limited and Remus Films Limited. Romulus Films Limited and Remus Films Limited have significant shareholdings in the company – see page 16.

The group has taken advantage of the exemption from disclosing transactions with subsidiaries, as permitted by FRS8.

18 Deferred taxation

A deferred tax asset has not been recognised in respect of temporary timing differences relating to capital losses and accelerated capital allowances on film rights and excess management expenses as there is insufficient evidence that the asset will be recovered. The amount of the asset not recognised is £645,001 (2009 – £625,559). The asset would be recovered if the company disposed of its investments and made sufficient future taxable profits and chargeable gains.

It is unlikely the parent company will generate sufficient taxable profits in the future as its taxable losses are usually more than offset by the taxable profits generated by subsidiary companies, to recover management expenses of £7,806 (2009 – £7,806) and no deferred tax asset has been recognised in the year or prior years.

19 Risk management and other financial instruments

The group's financial instruments primarily comprise equity investments, although it also holds convertible stock, loan stock and fixed interest investments, stock derivatives, cash and other items arising from its operations.

The group's investing activities undertaken in pursuit of its investment objective as set out on page 2 involve certain inherent risks.

The main risks arising from the group's financial instruments are market risk (comprising other price risk, interest rate risk, currency risk), liquidity risk and credit risk. The board reviews and agrees policies for managing each of these risks and they are summarised below. The policies have remained unchanged throughout the year.

As an investment trust, the group invests in securities for the long term. The group's stated investment policy is to invest predominantly in investment trusts and other leading UK quoted companies. The group may write options on shares held within the investments portfolio where such options are priced attractively relative to longer term expectations of the relevant share prices.

At the year end written put and call options, which are traded on the Chicago Board Options Exchange, totalled £1,728,190 (2009 – £984,605). The fair market value and resulting gain is disclosed in note 12 on page 37.

Notes to the financial statements (continued)

19 Risk management and other financial instruments (continued)

Other price risk

The group's exposure to other price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the group might suffer through holding positions in the face of unfavourable market price movements. The board has established investment parameters to adequately monitor the investment performance, status of the business and the inherent risk in managing a portfolio of investments. The board receives financial information monthly, meets on four scheduled occasions each year and reviews annually the aforesaid investment parameters. The group's exposure to other changes in market prices at 31 December on its quoted and unquoted investments was:

	2010	2009
	£000	£000
Investments held at fair value through profit or loss	30,881	29,385
Derivatives held at fair value	945	742
	31,826	30,127

Details of the group investment portfolio at the year end are shown on page 10.

Other price risk sensitivity

A 10% increase in group portfolio valuations at 31 December 2010 would result in an increase of £3,183,000 (2009 – £3,013,000) in net asset value and profit for the year. A decrease of 10% would have had an equal but opposite effect.

Financial assets - interest rate risk

The majority of the group's financial assets are equity shares 92.2% (2009 – 90.2%) or other investments which pay dividends rather than interest and do not have a maturity date.

Interest bearing investments, including cash deposits, comprise 6.8% of the group's financial assets, of which 5.5% are at fixed rate and 1.3% floating rate.

Interest rate movements may directly affect the fair value of fixed rate securities and the level of interest receivable on floating rate cash deposits. Interest rate movements may also affect the general equity markets and thus indirectly affect the securities value of the group investment portfolio by impacting the value of equity investments. The potential effects of these direct and indirect movements are considered when making investment decisions.

The board regularly reviews the level of investments in cash, floating and fixed income securities and the attendant level of interest receivable.

The interest rate risk profile of the financial assets of the group at 31 December 2010 is shown below.

	Fair Value	2010	Fair Value	2009
	£000	Maturity	£000	Maturity
Fixed Rate				
UK fixed interest stock	469	16 years	419	17 years
UK notes and bonds	675	undated	672	undated
	1,144		1,091	
Weighted average interest rate (on fair value)	8.9%		9.4%	

Notes to the financial statements (continued)

19 Risk management and other financial instruments (continued)

Cash and cash equivalents comprise bank, broker and money market deposits with a maximum maturity period of one month.

Interest rate sensitivity

An increase of 0.5% in sterling interest rates at 31 December 2010 would have decreased the fair value of fixed interest securities and hence total net assets by £61,000 (2009 – £58,000). A decrease of 0.5% would have had an equal but opposite effect.

Fair values of financial assets and financial liabilities

All investments are carried at fair value. Other financial assets and liabilities of the group are held at amounts that approximate to fair value.

Fair value hierarchy

The fair value hierarchy as defined in IFRS 7 comprises 3 levels. With the exception of Unquoted UK investments with a year end market value of £339,000 (2009 – £412,000) which are categorised as Level 3, all other investments £30,542,000 (2009 – £28,912,000) and derivatives assets £2,385,000 (2009 – £1,335,000) and liabilities £1,440,000 (2009 – £593,000) are categorised as Level 1.

Level 1 investments and derivatives are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 3 investments inputs are not based on observable market data (unobservable inputs).

The values for investments categorised by type are identified on page 9. The movement in Level 3 investments is shown in the Unquoted UK column in note 9 on page 35.

Currency risk

The vast majority 74% (2009 – 72%) of the group's assets and liabilities are in sterling. The foreign currency exposure is almost exclusively in a single investment denominated in US dollars. The board monitors the group's exposure to foreign currencies on a regular basis. The Managing Director assesses the risk of this exposure and its possible effect on the net asset value of the group. Where appropriate, foreign currency contracts may be used to limit the group's exposure to anticipated future adverse changes in exchange rates.

	2010	2009
	£000	£000
US dollar		
Investments	7,425	7,642
Cash and cash equivalents	58	280
Derivatives - fair value through profit or loss	945	742
Net exposure	<u>8,428</u>	<u>8,664</u>
Total net assets	<u>32,198</u>	<u>31,037</u>

Notes to the financial statements (continued)

19 Risk management and other financial instruments (continued)

Currency risk sensitivity

At 31 December 2010, if sterling had strengthened by 5% in relation to the US dollar, with all other variables held constant, total net assets would have decreased by £401,000 (2009 – £413,000). Similarly, a 5% weakening of sterling against the US dollar, with constant other variables, would have increased total net assets by £444,000 (2009 – £456,000).

Liquidity risk

The group's assets almost entirely comprise listed realisable securities, which can be sold to meet funding requirements as necessary. Short-term flexibility is achieved through the use of surplus cash. The board has set, and regularly monitors, guidelines on limits for both individual holdings and exposure to quoted equities in total (see investment policy on pages 12 and 13). The group considers that its exposure is not significant.

Credit risk

This is the risk of loss to the group arising from the failure of a transactional counterparty to discharge its obligations.

The group manages this risk through the following controls:

- when making an investment in a bond or other security with credit risk, the risk is assessed and compared to the forecast investment return for each security;
- the board receives regular valuations of bonds and other securities;
- investment transactions are primarily placed through the group's broker. The credit worthiness of the broker and other entities is reviewed by the board. Investment transactions are normally done on a delivery versus payment basis such that the group or its custodian bank has ensured that the counterparty has delivered on its obligations before effecting transfer of cash or securities;
- cash is held at banks considered by the board to be reputable and of high credit quality.

The group's principal financial assets are bank balances and cash, other receivables and investments, which represent the group's maximum exposure to credit risk in relation to financial assets.

Cash and cash equivalents comprise bank balances and cash held by the group. The carrying amount of these assets approximates their fair value.

Total exposure to credit risk is not considered to be significant. In summary, the maximum exposure to credit risk at 31 December was:

	2010		2009	
	Balance sheet £000	Maximum exposure £000	Balance sheet £000	Maximum exposure £000
Fixed rate investments	1,144	1,144	1,091	1,091
Current assets				
Receivables	623	623	109	109
Derivatives classified as fair value through profit or loss	2,385	2,385	1,335	1,335
Cash and cash equivalent	509	509	985	985
	<u>4,661</u>	<u>4,661</u>	<u>3,520</u>	<u>3,520</u>

Fixed rate investments comprise 62.6% which are investment grade with the remaining 37.4% being non-investment grade.

Notes to the financial statements (continued)

19 Risk management and other financial instruments (continued)

None of the group's financial assets are past their due dates, impaired or secured by collateral or other credit enhancements.

Capital management policies and procedures

The group's capital management objectives are:

- to ensure that it will be able to continue as a going concern; and
- to maximise the income and capital return to its equity shareholders through an appropriate balance of ordinary and non-redeemable preference equity capital.

The group's total capital equity (ordinary and non-redeemable preference share capital and other reserves) at 31 December 2010 was £32,198,000 (2009 – £31,037,000).

The Board monitors and reviews the broad structure of the group's capital on an ongoing basis.

The group's objectives, policies and processes for managing capital are unchanged from the preceding accounting period.

Statement of compliance with the Combined Code of Best Practice

For the year ended 31 December 2010

The Statement of compliance with the Combined Code of Best Practice, which forms part of the Directors' report (page 18) is set out below. The following paragraphs describe the framework of internal controls in place to ensure that the company complies with the Financial Reporting Council's guidance ('the Turnbull guidance') which forms a part of the Code, and with the obligations of the UKLA's Disclosure and Transparency Rules which require a description of the main features of the internal control and risk management systems in relation to the financial reporting process and preparation of consolidated financial statements.

The board has considered the principles and recommendations of the AIC Code of Corporate Governance ('AIC Code') by reference to the AIC Corporate Governance Guide for Investment Companies ('AIC Guide'). The AIC Code, as explained by the AIC Guide, addresses all the principles set out in Section 1 of the Combined Code, as well as setting out additional principles and recommendations on issues that are of specific relevance to British & American Investment Trust PLC.

The board considers that reporting against the principles and recommendations of the AIC Code will provide better information to shareholders.

The company has complied with the recommendations of the AIC Code and the relevant provisions of Section 1 of the Combined Code, except as set out below:

- the whole board review the performance and remuneration arrangements of the Managing Director
- the need for an internal audit function

British & American Investment Trust PLC is a self-managed investment company. The company has therefore reported further in respect of these exceptions below.

Operation of the board

The board currently consists of four directors, one of whom is the executive Managing Director. The three non-executive directors are all independent, including the Chairman.

There is a formal schedule of matters to be specifically approved by the board and of the division of responsibilities between the Chairman and Managing Director and individual directors may seek independent advice at the expense of the company.

All non-executive directors have a formal letter of appointment and such terms and conditions of appointment of non-executive directors are available for inspection at the registered office of the company.

The board has delegated investment management, within clearly defined parameters and dealing limits to the Managing Director, who also has responsibility for the overall management of the business. The board makes all strategic decisions and reviews the performance of the company at board meetings.

As the Chairman is non-executive the board regards him as the Senior Independent Director and no separate Senior Independent Director has been appointed.

There were four board meetings and four audit committee meetings held during the year and the attendance by directors was as follows:

Number of meetings attended

	Board	Audit
JAV Townsend	4/4	4/4
DG Dreyfus	4/4	4/4
RG Paterson	4/4	4/4
JC Woolf	4/4	4/4*

Statement of compliance with the Combined Code of Best Practice (continued)

* Not a member of the committee but in attendance by invitation.

All the directors attended the Annual General Meeting.

Independence of the directors

The non-executive directors (Mr JAV Townsend, Mr DG Dreyfus and Mr RG Paterson) are independent and have no other relationships or circumstances which might be perceived to interfere with the exercise of independent judgement. Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson, at the date of the Annual General Meeting, will have served on the board for more than fifteen years, eleven years and ten years respectively from the date of their first election, but given the nature of the company as an investment trust and as permitted under the AIC Code, the board is firmly of the view that Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson can be considered to be independent. In arriving at this conclusion the board considers that long service aids the understanding, judgement, objectivity and independence of directors.

Tenure of directors

Letters which specify the terms of appointment are issued to new directors. The letters of appointment are available for inspection upon request.

Directors are subject to re-election by shareholders at the first AGM following their appointment and, subsequently, are subject to retirement by rotation over a period of a maximum of three years. Directors are not subject to automatic reappointment. All non-executive directors are appointed for fixed terms of three years. Biographical details of directors are set out on page 2.

The directors recognise that independence is not a function of service or age and that experience is an important attribute within the board. The directors may, therefore, decide to recommend a director with more than nine years service for re-election annually.

The director due to stand for annual re-election at the forthcoming AGM in accordance with the requirements of the AIC Code, and in accordance with the company's Articles of Association, is Mr JAV Townsend. Mr DG Dreyfus and Mr RG Paterson are also due to stand for annual re-election in accordance with the AIC Code.

The board has carefully considered the position of Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson and believes that, following formal evaluation, they continue to be effective and so it would be appropriate for them to be proposed for re-election. As stated previously, in respect of Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson it is the view of the board that long service in no way reduces the independence and objectivity of the directors. Mr DG Dreyfus, Mr JAV Townsend and Mr RG Paterson will stand for re-election annually.

Chairman

The Chairman is also non-executive chairman of three other investment trusts and a director of a number of other companies. He does not have a full time executive role in any organisation and the board is satisfied that he has sufficient time available to discharge fully his responsibility as Chairman.

Audit Committee

The audit committee is a formally constituted committee of the board with defined terms of reference, which include its role and the authority delegated to it by the board, which are available for inspection at the company's registered office. It meets twice yearly and among its specific responsibilities are the review of the company's annual and half yearly results together with supporting documentation. The committee also reviews the internal and financial controls applicable to the company and its custodian, Walker Crips Stockbrokers Limited.

Statement of compliance with the Combined Code of Best Practice (continued)

All the non-executive directors are members of the audit committee and its chairman is Mr DG Dreyfus. The audit committee considers Mr Dreyfus as the member of the audit committee having relevant and recent financial experience.

The provision of non-audit services is reviewed separately by the audit committee on a case by case basis, having consideration of the cost effectiveness of the services and the independence and objectivity of the auditors.

Nomination Committee

The board as a whole fulfils the function of the nomination committee.

The nomination committee oversees a formal review procedure governing the appointment of new directors and evaluates the overall composition of the board from time to time, taking into account the existing balance of skills and knowledge. Its chairman is the Chairman of the board. No new directors were appointed during the year. There are procedures for a new director to receive relevant information on the company together with appropriate induction.

Board and director evaluation

On an annual basis the board formally reviews its performance. The review covers an assessment of how cohesively the board, audit committee and nomination committee work as a whole as well as the performance of the individuals within them.

The Chairman is responsible for performing this review. Mr DG Dreyfus and Mr RG Paterson perform a similar role in respect of the performance of the Chairman. The formal evaluation confirmed that all directors continue to be effective on behalf of the company.

Remuneration

The remuneration of the executive director is decided by the board as a whole (comprising a majority of non-executive directors), rather than a remuneration committee. There is no performance-related element of the executive director's remuneration. The board considers that the interests of the Managing Director, who is himself a shareholder (see page 16), are aligned with those of other shareholders.

Relations with shareholders

Shareholder relations are given high priority by the board. The principal medium of communication with shareholders is through the interim and annual reports. This is supplemented by monthly NAV announcements.

The board largely delegates responsibility for communication with shareholders to the Managing Director and, through feedback, expects to be able to develop an understanding of their views.

Currently, there is a small number of major shareholders, details of which can be found on page 16.

All members of the board are willing to meet with shareholders for the purpose of discussing matters relating to the operation and prospects of the company.

The board welcomes investors to attend the AGM and encourages questions and discussions on issues of concern or areas of uncertainty. All directors expect to be present at the AGM.

Statement of compliance with the Combined Code of Best Practice (continued)

Accountability, Internal Controls and Audit

The directors' statement of responsibilities in respect of the financial statements is set out on page 19.

The directors are responsible for the effectiveness of the internal control systems for the company, which are designed to ensure that adequate accounting records are maintained, that the financial information on which the business decisions are made and which are issued for publication is reliable, and that the assets of the company are safeguarded. Such a system of internal control is designed to manage rather than eliminate the risks of failure to achieve the company's business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The board recognises its ultimate responsibilities for the company's system of internal controls and for monitoring its effectiveness. The board has established an internal control framework to provide reasonable assurance on the effectiveness of the internal controls operated. The board assesses on an ongoing basis the effectiveness of the internal controls. The board receives regular reports on all aspects of internal control (including financial, operational and compliance control, risk management and relationships with external service providers). Given the size of the business the company does not have a separate internal audit function. This is subject to periodic review.

The board has produced a risk matrix against which the business risks and the effectiveness of the internal controls can be monitored, which is regularly reviewed by the Audit Committee and at other times as necessary. It is believed that an appropriate framework is in place to meet the requirements of the AIC Code and FRC guidance.

Arrangements are in place by which staff of the group may, in confidence, raise concerns under the Public Interest Disclosure Act 1998 about possible improprieties in matters of financial reporting or other matters. If necessary, any member of staff with an honest and reasonable suspicion about possible impropriety may raise the matter directly with the Chairman of the company. Arrangements are in place for the proportionate and independent investigation of such matters and for appropriate follow-up action.

Powers to authorise conflict situations

In accordance with section 175 of the Companies Act 2006 and the Articles of Association, as amended at the AGM in June 2008, the company has procedures in place for ensuring that the unconflicted directors' powers to authorise conflict situations are operated effectively.

The board confirms that the above procedures have been complied with.

Going concern

The assets of the company consist mainly of securities that are readily realisable and, accordingly, the company has adequate financial resources to continue its operational existence for the foreseeable future. Therefore, the directors believe that it is appropriate to continue to adopt the going concern basis in preparing the accounts.

Employee, social, economic and environmental matters

As an investment trust the company has no direct impact on social, economic and environmental issues and the company's primary objective is to achieve capital and income growth by investing the company's assets in accordance with the stated investment policy. As such the company does not have any policies to disclose in these areas. All employee contracts are with a related party as disclosed in note 17 and as such the company does not have any formal policies in this area. The non-executive directors review the level of remuneration of the Managing Director and employees annually.

Exercise of voting rights

The board has delegated authority to the Managing Director to vote on behalf of the company, in accordance with the company's best interests.

Directors' remuneration report

For the year ended 31 December 2010

Introduction

This report is submitted in accordance with the requirements of sections 420 to 422 of the Companies Act 2006 in respect of the year ended 31 December 2010. An ordinary resolution to approve this report will be put to members at the forthcoming Annual General Meeting, but the directors' remuneration is not conditional upon the resolution being passed.

Consideration by the directors of matters relating to directors' remuneration

The board as a whole considers the directors' remuneration. The board has not appointed a committee to consider matters relating to directors' remuneration. The board has not been provided with advice or services by any person in respect of its consideration of directors' remuneration (although the directors expect from time to time to review the fees paid to the boards of directors of other investment companies).

Directors' remuneration policy

The company's policy is that fees payable to non-executive directors should reflect their expertise, responsibilities and time spent on company matters. In determining the level of non-executive remuneration, market equivalents are considered in comparison to the overall activities and size of the company.

The maximum level of non-executive directors' remuneration is fixed by the company's Articles of Association, amendment to which is by way of an ordinary resolution subject to ratification by shareholders. The current level (effective from 1 January 2003) is that aggregate non-executive directors fees should not exceed £45,000 per annum but a resolution is being proposed at the forthcoming Annual General Meeting to increase it to £75,000 per annum.

The emoluments and benefits of any executive director for his services as such shall be determined by the directors and may be of any description, including membership of any pension or life assurance scheme for employees or their dependants.

The company's policy is to allow executive directors to accept appointments and retain payments from sources outside the company as long as such appointments do not interfere with the performance of their company responsibilities.

The company does not confer any share options, long term incentives or retirement benefits on any director, nor does it make a contribution to any pension scheme on behalf of the directors. The company has not added any performance-related elements in the remuneration package of executive directors. As noted on page 16 Mr JC Woolf is a significant shareholder in the company. The company also provides directors' liability insurance.

It is intended that this policy will continue for the year ending 31 December 2011 and subsequent years.

Sums paid to third parties (audited)

The directors' fees payable to RG Paterson were paid to Eversheds LLP. This payment was for services as a director of the company.

Services contract

Mr JC Woolf has a service contract dated 1 September 1992 with the company. The contract does not have a fixed term, requires 12 months notice of termination, with salary and benefits compensation payable for the unexpired portion on early termination. No other director has a service contract with the company.

By order of the board

KJ Williams

Secretary

26 April 2011

Wessex House
1 Chesham Street
London SW1X 8NB

Notes:

Any member of the company entitled to attend and vote at the meeting may appoint another person or persons (whether a member or not) as his/her proxy to attend and to vote instead of him/her provided that if more than one proxy is appointed each proxy must be appointed to exercise the rights attached to a different share or shares. Completion and return of a form of proxy will not preclude a member from attending and voting at the meeting in person, should the member subsequently decide to do so. A form to be used for appointing a proxy or proxies for this meeting to vote on your behalf can be found at page 54 of this document. In order to be valid, any form of proxy and power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority, must reach the company at Wessex House, 1 Chesham Street, London SW1X 8ND or by fax to 020 7201 3101, not less than 24 hours (excluding any part of a day which is a non-working day) before the time of the meeting or of any adjournment of the meeting.

Notice of meeting (continued)

Under the company's articles of association only holders of the ordinary shares are entitled to attend and vote at this meeting. In accordance with Regulation 41 of the Uncertificated Securities Regulations 2001, this entitlement is determined by reference to the company's register of members and only those members entered on the company's register of members at 12.15pm on 14 June 2011 or, if the meeting is adjourned, shareholders entered on the company's register of members at the time which is 48 hours before the time fixed for the adjourned meeting, shall be entitled to attend and vote at the meeting.

As at 26 April 2011, the last practicable day before printing this document, the total number of ordinary shares of £1, carrying one vote each on a poll, in issue was 25,000,000, the total number of cumulative convertible non-voting preference shares of £1, in general carrying no votes at general meetings of the company, in issue was 10,000,000 and the total voting rights in the company were 25,000,000.

A copy of this notice, together with any other information that the company is required to make available on a website in accordance with section 311A of the Companies Act 2006 will be included on the company's website www.baitgroup.co.uk.

Any member attending the meeting is entitled, pursuant to section 319A of the Companies Act 2006 to ask any question relating to the business being dealt with at the meeting. The company will answer any such questions unless (a) to do so would interfere unduly with the preparation for the meeting or involve the disclosure of confidential information; or (b) the answer has already been given on a website in the form of an answer to a question; or (c) it is undesirable in the interests of the company or the good order of the meeting that the question be answered.

Where members satisfying the thresholds in sections 338 and 338A of the Companies Act 2006 require the company to:

- (a) circulate to each member of the company entitled to receive notice of the annual general meeting, notice of a resolution which may properly be moved and is intended to be moved at the annual general meeting;
- (b) include in the business to be dealt with at an annual general meeting a matter (other than a proposed resolution) which may properly be included in the business;

the company must:

- (a) circulate the resolution proposed pursuant to section 338 of the Companies Act 2006 to each member entitled to receive notice of the annual general meeting;
- (b) include in the business to be dealt with at the annual general meeting the matter proposed pursuant to section 338A of the Companies Act 2006.

A resolution may be properly moved at the annual general meeting unless: (a) it would, if passed, be ineffective (whether by reason of inconsistency with any enactment or the company's constitution or otherwise); or (b) it is defamatory of any person; or (c) it is frivolous or vexatious.

A matter may be properly included in the business of an annual general meeting unless it is defamatory of any person or is frivolous or vexatious.

A member or members wishing to request the circulation of the resolution and/or the inclusion of a matter must send the request to the company using one of the following methods:

in hard copy form to the company at Wessex House, 1 Chesham Street, London SW1X 8ND marked for the attention of the Company Secretary - the request must be signed by or on behalf of the member(s) making it and accompanied by any form of proxy and power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority; or

Notice of meeting (continued)

by fax to 020 7201 3101 marked for the attention of the Company Secretary - the request must be signed by or on behalf of the member(s) making it and accompanied by any form of proxy and power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority.

Whichever form of communication is chosen, the request must be received by the company not later than 5 May 2011 and (as appropriate):

- (a) identify any resolution of which notice is to be given;
- (b) identify the matter to be included in the business and be accompanied by a statement setting out the grounds for the request.

Where the company receives requests from a member or members either to (a) give notice of a resolution to be proposed by members at the annual general meeting and/or (b) circulate a matter proposed by members to be included within the business to be dealt with at the annual general meeting, the expenses of giving such notice or circulating such matter must be paid by the member or members submitting the request by depositing with the company not later than 5 May 2011 a sum reasonably sufficient to meet these expenses.

Members satisfying the thresholds in section 527 of the Companies Act 2006 may require the company to publish on its website, a statement setting out any matter that such members propose to raise at the annual general meeting relating to the audit of the company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the annual general meeting. Where the company is required to publish such a statement on its website it may not require the members making the request to pay any expenses incurred by the company in complying with the request, it must forward the statement to the company's auditors no later than the time the statement is made available on the company's website, and the statement may be dealt with as part of the business of the annual general meeting.

A member or members wishing to request publication of such a statement on the company's website must send the request to the company using one of the following methods:

in hard copy form to the company at Wessex House, 1 Chesham Street, London SW1X 8ND marked for the attention of the Company Secretary - the request must be signed by or on behalf of the member(s) making it and accompanied by any form of proxy and power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority; or

by fax to 020 7201 3101 marked for the attention of the Company Secretary - the request must be signed by or on behalf of the member(s) making it and accompanied by any form of proxy and power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority.

Whichever form of communication is chosen, the request must either set out the statement in full or, if supporting a statement sent by another member, clearly identify the statement which is being supported, and be received by the company at least one week before the annual general meeting.

The register of directors' interests and copies of the managing director's service agreement and the letters of appointment of non-executive directors will be available for inspection at the registered office of the company during normal business hours from the date of this notice until the conclusion of the Annual General Meeting.

NOTES

- Please indicate with an X in the boxes above how you wish your votes to be cast. If you select 'Discretionary' or the form is returned without any indication as to how the proxy shall vote on any particular matter, and on any other business which may come before the meeting, the proxy will vote or abstain as he thinks fit.
- In order to be valid, this form of proxy and any power of attorney or other authority under which it is signed, or a notarially certified or office copy of such power or authority, must reach the company at Wessex House, 1 Chesham Street, London SW1X 8ND or by fax to 020 7201 3101, not less than 24 hours (excluding any part of a day which is a non-working day) before the time of the meeting or of any adjournment of the meeting. Appointment of a proxy will not preclude a member from attending and voting in person should he subsequently decide to do so.
- A corporation's proxy must be either under its common seal or under the hand of a duly authorised officer or attorney.
- A space is provided to appoint a proxy other than the person named above. A proxy need not be a member of the company.
- To appoint more than one proxy, (an) additional proxy form(s) may be obtained by contacting the company on 020 7201 3100 or you may copy this form. Please indicate with the proxy holder's name the number of securities in relation to which they are authorised to act as your proxy. Please also indicate by ticking the box provided if the proxy instruction is in addition to a previous instruction. All forms must be returned together in the same envelope.
- The 'Vote Withheld' option is provided to enable you to abstain on any particular resolution. However, it should be noted that a 'Vote Withheld' is not a vote in law and will not be counted in the calculation of the proportion of the votes 'For' and 'Against' a resolution.
- This form of proxy should only be completed by the ordinary shareholders.
