

# Chain Flail Heads

A tool which has many uses and is simple to use and maintain. Several pipe diameters can be cleaned with the same tool. All chain flails have front triangular root cutter.

Applications include:

- Root cutting and removal
- Removal of scale and thin concrete deposits
- Preparation of pipes before relining.

Working Pressure: up to 150 Bar

Order No.	Diameter mm	Length mm	Connection	Weight kg	Scope of Application (Ø mm)	Min flow rate at 100 bar l/min
