

UH-80 40 Kpsi Large Pipe Cleaner

40 Kpsi Power quickly removes hard coatings and deposits

Nothing cuts hard coatings and deposits like ultra high pressure. Put over 400 HP on the job with the **UH-80 Pipe Cleaner**. Use less water, and save money on collection, solids removal, and water filtration. The durable gearbox and air motor drive rotates the jets at just the right speed for maximum power delivery to the pipe walls. The **UH-H9H6 Swivel** handles up to 20 gpm. Whether the job is epoxy coating removal, hard polymer deposits, or chemical byproduct scale; the **UH-80** is a great choice.

Maximum Extension

- Air powered rotation for thorough cleaning and dependability
- 8-Wheel design goes around elbows
- Handles pipes from 16.6 to 37.5 in. ID
- Efficient and powerful **OS6 Sapphire Nozzle Tips**, pg. 47
- Replace wheel assemblies for larger diameter pipes

Collapsed

Specifications

Model	UH-80	
Max. Pressure	40 Kpsi	2760 bar
Flow Rating	0.64 Cv	
Flow Capacity	20 gpm	76 lpm
Gear Ratio	10:1	
Rotation Speed	60 - 250 rpm	
Pipe ID	16.6 - 37.5 in.	420 - 950 mm
