

Gearhead 3D Bulk Container Cleaner

First used by paint manufacturers to clean totes, the **Gearhead 3D** works in a wide variety of applications. Its gearbox, powered drive, and proven SG Swivels make it a dependable and efficient system for repetitive cleaning tasks. These custom systems are not stocked. Allow 3 weeks lead time.

- Reliable gearbox and air motor drive
- Length as needed for customer's application

Specifications

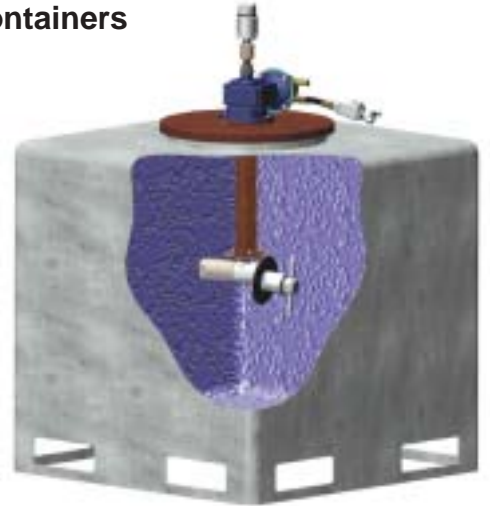

Model	GH 100
Swivels (2)	SG-P12KM
Max. Pressure	15 Kpsi 1030 bar
Flow Rating	3.5 Cv
Flow Capacity	80 gpm 300 lpm
3D Cycle	250-1000 rpm
Weight	78 lb 35 kg

Clean totes, open head drums, other bulk containers

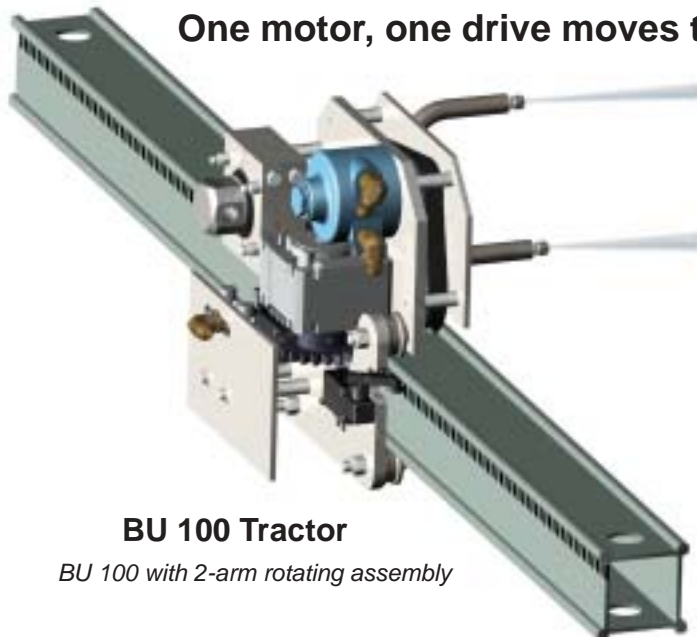

Clean difficult to access sections of chemical reactors

Decontaminate used bulk containers

BU Go Anywhere Waterblast Tractor

One motor, one drive moves the rotating waterjets where needed
