
Corporate Work Life Balance Days

For

Motivated, healthy and stress free employees.

Would you like to spend your working day in a positive and healthy environment?

Would it make a difference to your business if your employees were motivated and energised?

What would be the benefits of being employer of choice?

Let the Back Magic Team be part of that exciting new future.

We can bring to your workplace alternative therapies, healthy food options and a variety of workshops designed to improve health and wellbeing.

We can offer you and your staff a chance to try some new experiences which may help to bring balance into your lives and encourage some healthy lifestyle changes.

These Work Life Balance Days can be tailored to your needs and the Back Magic Team will ensure, through continuing feedback, that they are meeting your needs.
