Built on the award winning NetVu Connected™ technology platform from Dedicated Micros - the world's leading CCTV equipment manufacturer - Click5 introduces superior / intelligent security solutions in to the home providing a powerful deterrent to trespassers and criminals.

Detailed Survey

Our Bright Consultants will review your property and listen to your individual circumstances before producing a detailed security survey that will encompass all your requirements.

Bespoke System Design

Whether optimised for property protection whilst you are away or simply to provide added security whilst you are at home, you can be confident that a CCTV system from Bright will meet your individual needs.

Approved Installers

To ensure client safety and absolute integrity, all our Security Consultants and System Engineers are approved to Bright's rigorous standards.

Service & Maintenance

As a Bright client you will also benefit from our sales and support network. Within the first month our Consultants will arrange a convenient follow-up visit, to ensure that you are getting the very best out of your new system.

For further details of our various Service and Maintenance packages, please contact your local Bright representative.

Details of our Service & Maintenance packages are available on our website.

- Discrete installation, 100% quality guaranteed
- A digital bodyguard watching over your home and family
- View or receive alerts on your TV, PC, mobile phone* / PDA in your home, office or whilst you're away
- Integration into home automation systems
- Professional remote monitoring from RemGuard with Police alerts

State of the art Click5 products from the world's leading CCTV equipment manufacturer...

External CCTV Cameras

Whether you desire a visible deterrent, or something more subtle, our selection of high-resolution, weatherproof, CCTV cameras will provide continuous coverage around your property.

Audio Warning System

With our remote monitoring service from RemGuard, you can also benefit from an audio warning system that will deter any would-be trespassers from intruding into your property.

Digital Recording

All cameras are recorded using the latest digital recording technology with easy access for reviewing footage and the option to back-up data to an external hard drive.

Multi-Property Security

Our unique Click5 CCTV system can be easily expanded to support multiple properties so you can simply add a system to another family residence or holiday home. When multiple properties are covered you can view your cameras from any residence on any of your systems.

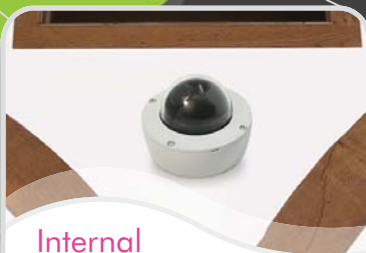

Remote Monitoring

If you are away from home and want the peace of mind that your property is being watched over, we can provide a remote monitoring facility flexible to your needs. Details of our remote monitoring packages from RemGuard are available from your Bright Consultant.

Internal CCTV Cameras

Discrete cameras that can blend into the interior of any property can be installed to provide coverage of important areas such as entrance doors and priority areas around the home.

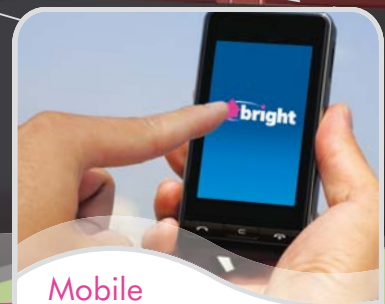

CCTV Console

With our compact CCTV control system, you can view your live or recorded CCTV footage from any chosen location in your home. You can also view them using a laptop or desktop PC.

Mobile Viewing

Bright offers several options to view your CCTV cameras whilst you are away from home. Including applications for mobile phones or PDA's.

“With our compact CCTV control system, you can view your live or recorded CCTV footage from any chosen location in your home.”
