

# CONTENTS

## Section Properties

## Page No.

General Notes	
Universal Beams	1 & 2
Universal Columns	2
Rolled Steel Joists	3
Parallel Flanged Channels	3
Hot and Cold - Circular Hollow Sections	4
Hot Finished Square Hollow Sections	5
Cold Formed Square Hollow Sections	6
Hot Finished Rectangular Hollow Sections	7
Cold Formed Rectangular Hollow Sections	8
Equal Leg Angles	9
Unequal Leg Angles	10
Structural Tees %UB's	11 & 12
Structural Tees %UC's	12

## Section Capacities and Resistances - Grade S355

General Notes		
Examples of Use		
Universal Beams	Axial Load and Bending	S355 / 1 - 8
Universal Columns	Axial Load and Bending	S355 / 9 - 10
Rolled Steel Joists	Axial Load and Bending	S355 / 11
Parallel Flanged Channels	Axial Load and Bending	S355 / 12
Hot Finished Circular Hollow Sections	Axial Load and Bending	S355 / 13
Cold Formed Circular Hollow Sections	Axial Load and Bending	S355 / 14 - 15
Hot Finished Square Hollow Sections	Axial Load and Bending	S355 / 16 - 17
Cold Formed Square Hollow Sections	Axial Load and Bending	S355 / 18
Hot Finished Rectangular Hollow Sections	Axial Load and Bending	S355 / 19 - 25
Cold Formed Rectangular Hollow Sections	Axial Load and Bending	S355 / 26 - 31
Equal Leg Angles	Compression Resistance	S355 / 32
Unequal Leg Angles	Compression Resistance	S355 / 33
Universal Beams	Web Shear Bearing and Buckling	S355 / 34 - 38
Universal Columns	Web Shear Bearing and Buckling	S355 / 39 - 40
Rolled Steel Joists	Web Shear Bearing and Buckling	S355 / 41
Parallel Flanged Channels	Web Shear Bearing and Buckling	S355 / 42
Equal Leg Angles	Tension Capacity	S355 / 43
Unequal Leg Angles	Tension Capacity	S355 / 44 - 45

## Section Capacities and Resistances - Grade S275

General Notes		
Universal Beams	Axial Load and Bending	S275 / 1 - 8
Universal Columns	Axial Load and Bending	S275 / 9 - 10
Rolled Steel Joists	Axial Load and Bending	S275 / 11
Parallel Flanged Channels	Axial Load and Bending	S275 / 12
Hot Finished Circular Hollow Sections	Axial Load and Bending	S275 / 13
Cold Formed Circular Hollow Sections	Axial Load and Bending	S275 / 14 - 15
Hot Finished Square Hollow Sections	Axial Load and Bending	S275 / 16 - 17
Cold Formed Square Hollow Sections	Axial Load and Bending	S275 / 18
Hot Finished Rectangular Hollow Sections	Axial Load and Bending	S275 / 19 - 25
Cold Formed Rectangular Hollow Sections	Axial Load and Bending	S275 / 26 - 31
Equal Leg Angles	Compression Resistance	S275 / 32
Unequal Leg Angles	Compression Resistance	S275 / 33
Universal Beams	Web Shear Bearing and Buckling	S275 / 34 - 38
Universal Columns	Web Shear Bearing and Buckling	S275 / 39 - 40
Rolled Steel Joists	Web Shear Bearing and Buckling	S275 / 41
Parallel Flanged Channels	Web Shear Bearing and Buckling	S275 / 42
Equal Leg Angles	Tension Capacity	S275 / 43
Unequal Leg Angles	Tension Capacity	S275 / 44 - 45
