WHAT DO YOU KNOW ABOUT CANCER? FIND OUT MORE

Teesside Cancer
Awareness Roadshow

TEESSIDE CANCER AWARENESS ROADSHOW HELPING YOU UNDERSTAND CANCER

Let's talk about cancer

Cancer affects many people in the Teesside area each year. We also know that people can be a bit apprehensive about talking about cancer.

But by giving you the facts you need, increase self-awareness about your body and early diagnosis, more people will fight and beat the disease.

And that's where the Cancer Awareness Roadshows come in – and so do you!

NHS Tees in partnership with Macmillan Cancer Support are launching a series of interactive awareness roadshows and invite you to find out more about cancer.

So, what will you find out at the roadshow?

Throughout 2012 the roadshows will travel throughout Teesside visiting a wide variety of venues from local events, office buildings and community groups. Check out the NHS Tees website to find out where you can find us and when.

We'll give you information about the symptoms to look out for, what to do if you notice anything different about your body and the importance of early diagnosis.

And, because the information and advice is through interactive games, not just written material, we hope we'll take away a little of the fear factor about talking about the disease.

So why not drop by and visit one of the roadshows? Try your hand at some of our interactive games and find out more about some of the possible signs and symptoms of cancer, what to do if you're worried and why knowing what is normal for you and your body is important.

Or, the roadshow can come to you!

We're keen to visit as many places in the community as possible, so maybe we could bring the roadshow to your school, community centre or office. We don't need much space and can run the roadshow outside or inside your building.
