C & D Restoration Limited carried out the following works to this residential building.

Front Façade

A chemical clean was carried out to the yellow stock brick work on the front of the property preparing for restoration works which include:

- Restoring the full length of cornice back to its original lines and profiles using a Portland limestone mix.
- Replaced damaged yellow stock bricks.
- 100% re-point (weather struck).
- Rendered all window reveals.

Rear Façade

- 100% re-point (weather struck).
- Insertion of new air vents to specified locations.
- Replaced all damaged yellow stock bricks.

Roof

Our craftsmen took down and completely rebuilt two chimney stacks on the roof replacing all chimney pots.
