

HALTEC (CHESTER) LTD

CONSULTING CIVIL AND STRUCTURAL ENGINEERS

PROJECT DESCRIPTION:

CONSERVATION

Based in the historical city of Chester, Haltec are ideally located to apply their engineering expertise to the careful refurbishment of the North West's prestigious historical buildings. Notable and award winning projects include:

- 1761 Building, formerly the Chester Royal Infirmary.
- Greystoke Hall, Palatine Road, Didsbury.
- Queens Court, Chester.

Haltec Services:

- Detailed Structural Specifications and designs.
- Planning Supervisor.
- Building Regulations and Planning submissions.
- Building surveys, both condition and measurement.
- Site Investigations.
- Remedial works to structural defects.

1761 Building during refurbishment works

The remains of a Roman drainage culvert exposed in Chester.

1761 Building – Royal Infirmary completed

Queens Court, Chester
