18-20 Miles Street  
Oldham, Lancashire  
OL1 3NU

Our mesh fabrics can be cleaned and rejuvenated safely by a variety of cleaning agents depending on the type of soiling e.g.

1. Use a warm to hot soapy wash then leave to dry at room temperature.
2. Use a weak acid or alkaline and soak in such as hydrochloric acid or ash soda followed by a clean water rinse and ambient dry.
3. Dry cleaning solvents may be safely employed.

Synthetic meshes are best stored in a cool, dark place which helps to prevent u.v. degradation (yellowing) of undyed meshes.
