3D Exploded View

- The roof is UV treated and endures at extreme climate conditions. It can bear heavy weights and tie down straps during transportation. Its ultra flat design facilitates loading optimisation.

- Ultra smooth walls can be washed easily with built-in, irremovable aeration vents to protect the cabin from insects and rain.

- Highly stable door with easy wash moulding.

- Door handle with occupied/vacant indicator and wind resistance devices.

- Ventilator pipe.

- Toilet seat and lid.

- Functional waste collection tank with ergonomic seat and anti-contact bends.

- Single block floor highly resistant to impact, with non-slip surface and raised rims preventing accumulation of dirt and facilitating the washing and disinfecting operations.

Toilets and options are delivered unassembled.

Top Line Specifications

- Weight, empty 78 kg
- Tank capacity 210 l approx.
- Outside, L/D/H 106 x 106 x 233 cm
- Inside, L/D/H 100 x 100 x 212 cm
- Height of seat 51 cm

Top Line wall panels are Armal logo free.

Integrated Components

Top Line comes with:

Toilet paper holder holds 3 rolls with practical utility shelf and rod fitted with theft prevention lock.

Urinal with drain cover and lodging for the fluoride pellet which disinfects and perfumes the environment as well as preventing obstruction of the pipe.

Coat/tool-belt hook.

Pluses

Highly stable door thanks to the heavy duty spring coil. The door has thicker areas in crucial points.

A wind resistance device has been fitted to the door to ensure perfect closure when unlocked. Integrated hinges for padlock.

The overlapping wall assembly system means that the rivets are hidden throughout for greater safety. The inner core enables rapid insertion of the lifting kit (optional).

Curved corners for easy grip.

Ventilator pipe connected to the waste tank specially shaped to the design of the walls to maximise space inside the cabin.

Skids under the platform facilitate loading onto the vehicle bed.

Comfortable and sturdy at the same time, it has an excellent size/weight ratio ensuring user comfort and easy handling for the operator.
