

Tradline Rope & Fenders

Proprietors: Pete and Karen Flockhart

Originally Tradline Fenders, the business evolved when Pete manufactured, sold and fitted fenders from his workboat home on Braunston "Puddle Banks" during the early 1990's. Using the experience of 10 years deep sea in the merchant service, Pete developed the tricks of his trade calling on the advice of the retired boatmen residing in Braunston and the surrounding "narrow boat country".

Moving boat and business into Braunston Marina during the winter of 1993 the business rapidly expanded into Tradline Rope and Fenders and took over "The Old Blacksmiths Forge" (formally Frank Nurser's workshop) from where it flourishes today.

Braunston Marina is situated on the A45 two miles West of Daventry, Northamptonshire.

We offer a warm welcome for those who visit and offer a full mail order service accepting most major credit cards.
